

Cyber Fears: What scares digital Natives and those around them

Blogathon

Societies around the world are quickly digitising

...Twitter...

...Facebook...

...Wireless accessible everywhere...

“Digital Natives”

are those who have figured how to use these technologies to their full potential

But even they have real fears.

If you are a Digital Native, are related to one or work with/alongside with one come
share your fears with us!

Blogathon: Many people blogging together at the same time on a shared topic

Date: Monday April 18th, 2011
