

ICANN 61 Readout

The Internet Corporation for Assigned Names and Numbers (ICANN) conducts three public meetings every year at locations across the world. The 61st meeting of ICANN was held in San Juan, Puerto Rico during 10 - 15 March, 2018. ICANN conducts "Readout Sessions" around the world after each meeting to disseminate the important issues and decisions taken to various stakeholders who could not attend. The ICANN 61 readout session is being organized by IIIT-B at the Institute campus. The main objective of the session is to engage IT professionals, students, civil society organizations for active participation in ICANN's multi-stakeholder consulting process.

Come and learn the governance of the Internet; your active participation and expertise is needed for steering the Internet to meet the technical, economic, social, political and regulatory requirements of the future
