

Wikipedia in the Classroom: A Study of the Wikimedia in Education Program at CHRIST (Deemed to be University)

Annexure II - Questionnaire for Faculty Members

- What was the motivation behind introducing this program in the institution, what were its key objectives?
- How do you think the program has evolved over the last six years? What were its unique aspects, or key achievements?
- Could you talk about some of the challenges faced in the process of developing and implementing the program at your institution? [Infrastructural, conceptual, access, quality, process etc.]
- Where do you see improvements may be required in the program?
- Do you see the program having an impact on pedagogic strategies and curricula? Please reflect on the same.
- Do you feel it is a good idea to engage students after they have finished the course? What are the ways to do so?
- How would you reimagine the next phase of this program? How would you develop on the learnings from the first phase?
